upgrade	LS18LED	12	150W	1,800W

Total Energy Reduction 3,720 watts

67% energy reduction

Installation in progress

BEFORE

AFTER

We have completed our new gymnasium lights installation. We are very pleased and have had lots of compliments on the brightness and color of the LED lights. - Maintenance Dept.

Game on!

The Bruce Normile Juvenile Justice Center achieved a **67% reduction in energy** in the gymnasium by upgrading existing HID fixtures to energybank LightSource® LS18 LED.

The consistent, even quality of the glare-free white light has dramatically improved the appearance of the gymnasium as demonstrated in the photos above. The LS18 delivers a better quality light for activities in the facility. The result is a huge improvement in both appearance, safety and performance with significant energy and maintenance savings over 100,000 hours.

That's LED Done Right.
