

LED Done Right™

Sunshine Food Mart  
Elwood, IL

**project data** | existing retrofit

type	qty	energy per unit	total energy
T12 4-lamp 2x4 troffer	23	162W	3,726W
ThinLine LED	23	30W	690W

**TOTAL ENERGY REDUCTION 3,036 watts**

**81%**  
energy  
reduction

The look and feel of the Sunshine Food Mart was completely transformed when the existing 4-lamp T12 2x4 troffers were upgraded to energybank high-performance LED ThinLine™.

Whereas the 4-lamp T12 fixtures were consuming 162 watts each, the new energybank ThinLine fixtures consume only 30 watts each for a 81% energy reduction and a dramatic improvement in light quality and color accuracy for enhanced merchandising.

The consistent, even quality of the ThinLine LED white light packaged in a sleek and modern form factor has completely renovated the food mart space, improving the appearance and the retail environment. And the fixtures are essentially maintenance-free over 100,000 hours of operation. That's LED Done Right.
