LED Done Right®

Dr. Kenneth Katz, the Founder and President of Forefront Dermatology, spoke candidly about his appreciation for the energybank ThinLine troffer alternative.

"It's a high quality product," stated Dr. Katz. "Since upgrading to the ThinLine, it is helping my employees to be happier with their jobs, it makes their jobs easier and makes them more productive, which is the standard formula for success."

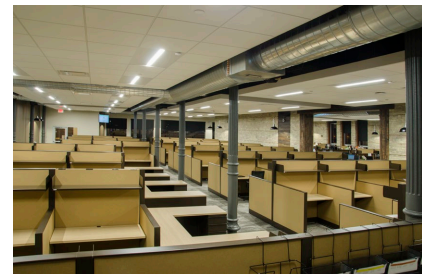

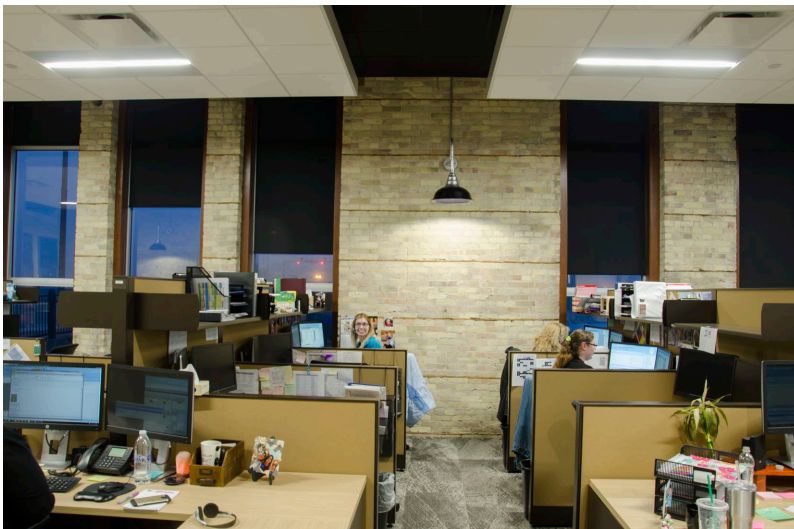

Dr. Katz is a dermatologist and Mohs surgeon by training, therefore, quality lighting is very important. "To me, the light from ThinLine LED is almost more natural feeling than the sun," stated Dr. Katz. "As a dermatologist, I can see the patient better, diagnose them better and treat them better."

Maritime Drive Call Center
- Manitowoc, Wisconsin

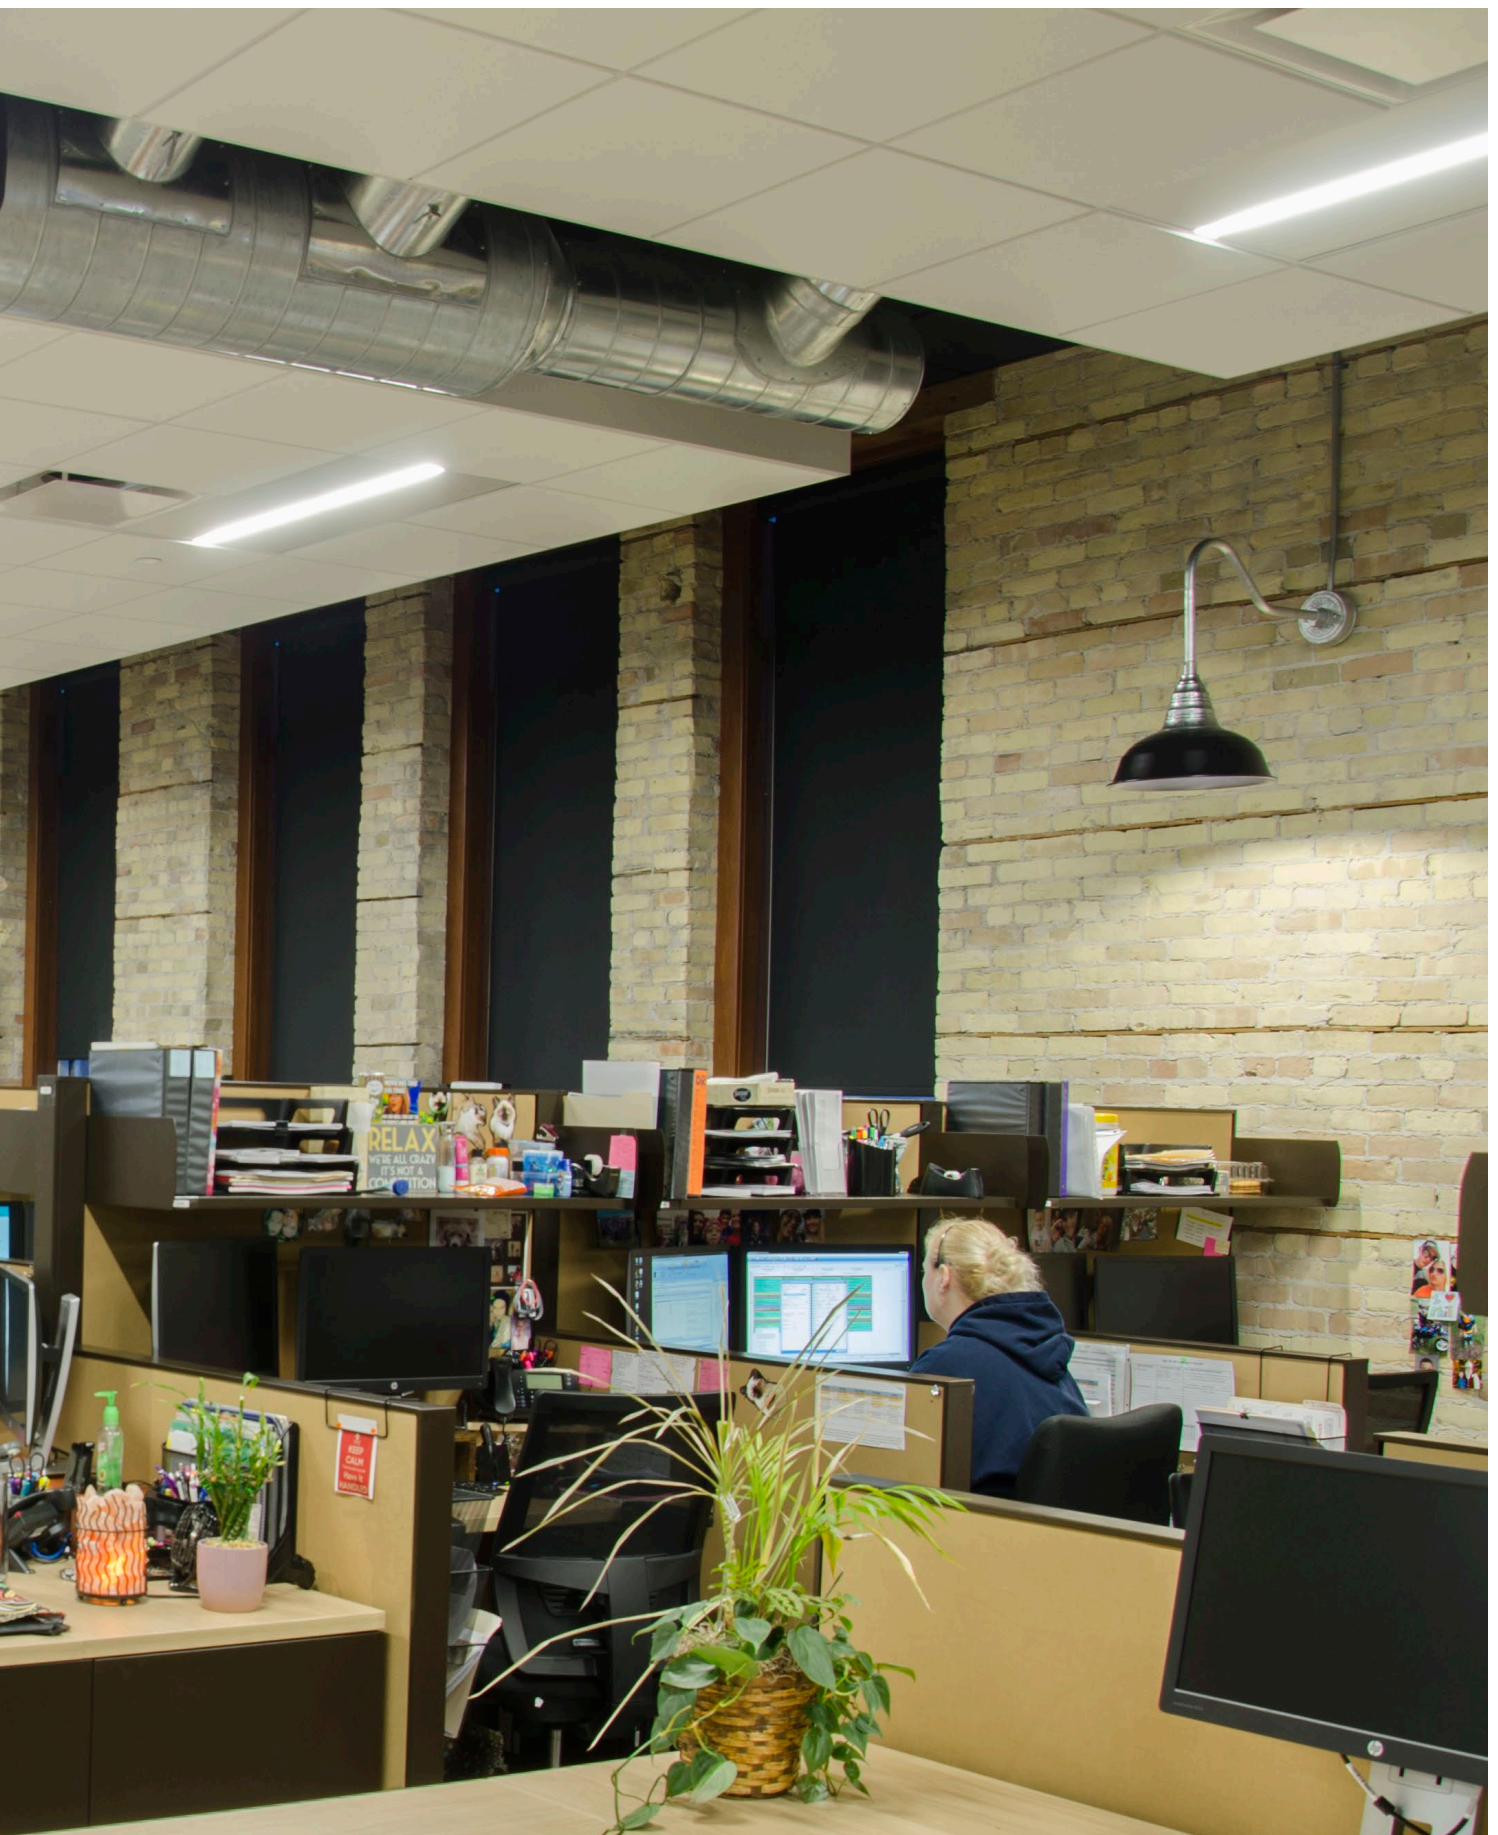

100,000 hour maintenance-free life.

"Now that we work under energybank LED lights, it's less strain on our eyes and it's easier to work in the environment for eight hours or more," remarked Katelyn from the Billing Department.
