48% Energy Reduction Increased Light Level

High-performance, superior quality LED lighting transforms work spaces. In addition to significant energy savings, the crisp, even brightness improves productivity, attention to detail, quality control and safety.

Efficient. Sustainable. Good business. That's LED Done Right®.

TOTAL ENERGY REDUCTION: 2,242kWh
ANNUAL ENERGY REDUCTION: 48%

**Additional savings in lighting maintenance and repair*

Energy savings from this project have a positive impact on Greenhouse Gas emissions. A reduction of **2,242 kWh** is the equivalent of:

Eliminating the greenhouse gas emissions from **3,876 miles** driven by an average **passenger vehicle**

Eliminating the CO₂ emissions from **178 gallons of gasoline** consumed

The carbon sequestered by **1.9 acres** of US Forest in one year
